KEEP YOUR BUSINESS  
ON THE ROAD.  
THAT'S VANONOMICS.**

### Maintaining your vehicle for use after lockdown

As the UK continues to face a period of isolation due to the Covid-19 outbreak, many businesses are planning their return to work strategy.

To ensure your vehicle is ready to operate, please carry out the following checks for all your vehicles:

- Check the tyres visibly for punctures and condition
- Check lights, horn, wipers and washers for operation
- Check oil, coolant and screen wash levels
- Does the vehicle start?
- Are there any warning lights on the dashboard?
- Check the foot brake and hand brake operation
- Check the service sticker located on the windscreen for service due date or mileage

If any of the above checks need Workshop assistance please call Northgate on **03330 146 650** quoting your name, registration and mileage.
