

**USING DATA  
TO DELIVER  
BUSINESS  
EFFICIENCIES.**

**THAT'S  
VANONOMICS.**

## The power to drive efficiency at your fingertips.

At Northgate, we understand how important your vans are to your business which is why we've designed a range of Telematics solutions to give you the control you need and peace of mind that your vehicles are productive, operationally efficient and safe.

Telematics is transforming the way operators of fleets can deliver cost efficiencies, improved driver safety and efficient customer service.

By combining Telematics with our camera solution you can obtain footage of collisions, near misses or harsh driving which can help protect your business against false insurance claims, driving allegations and can be used as evidence to dispute liability.

Speak to your account manager and see how Northgate Telematics Solutions could help your business.

### Key Benefits

#### Vehicle tracking made easy

Track all your vehicles in real time, making route planning and job allocation quicker and simpler.

#### Effective Cost Management

Use data and insight such as vehicle idling and fuel consumption to reduce the cost to run your vehicles.

#### Reduce Business Risk

Analyse data including speed and harsh events to track how the vehicles are being driven and act on it to reduce incidents and keep compliant.

## HOW IT WORKS

1. Select the right package to suit you and if you're not sure we can help you choose.
2. We'll set up and fit your vehicles with the necessary equipment at a time that's convenient to you.
3. You'll receive all the necessary training to make sure your comfortable with the system.
4. We'll then be on hand for any support or questions you may have.

Our flexible solutions come in three packages tailored to suit your business needs.

		Control	Control+	Control+ with Camera
